Complements

Astor Mobili presenta Complements, una serie completa di tavoli fissi ed allungabili, di sedie, di madie e tavolini che interagiscono sinergicamente con i sistemi Mood e Skyline.

A questi, si aggiungono i nuovi elementi divisori Flexi e i nuovi moduli su pali Sunrise, i primi utilizzabili come filtro tra un ambiente e l'altro, i secondi come utile libreria freestanding o a parete in grado di garantire numerose varianti compositive e di contenimento.

Novità assoluta inoltre è l'inserimento in gamma delle Entry Units, un sistema composto da una serie di moduli contenitivi, di vani a giorno e di moduli sedute che arredano con stile gli ingressi e le piccole zone office della casa.

I pannelli tv, uno dei plus da sempre dei sistemi giorno Astor, chiudono questa gamma di prodotti che insieme garantiscono una risposta completa e attenta alle esigenze della propria clientela.

Astor Mobili presents Complements, a complete series of fixed and extendable tables, chairs, sideboards and coffee tables that interact synergistically with the Mood and Skyline systems.

These are joined by the new Flexi dividing elements and the new Sunrise pole-mounted modules, the former of which can be used as a filter between rooms and the latter as a useful freestanding or wall-mounted bookcase capable of providing numerous compositional and storage variations.

Also new to the range is the inclusion of Entry Units, a system composed of a series of storage modules, open compartments and seating modules that stylishly furnish entryways and small office areas of the home.

TV panels, one of the long-standing pluses of Astor's day systems, close this range of products that together ensure a comprehensive and attentive response to the needs of its customers.
